

## **THE WRIGHT GROUP UNAFFECTED BY HURRICANE DELTA WEATHER**

CROWLEY, La., October 10, 2020 - The Wright Group's Crowley, La. manufacturing facility remains operational despite wind damage and power outages in the local area caused by Hurricane Delta.

Delta, a category 2 hurricane producing winds of 80 – 100 mph sustained locally and throughout Southwest Louisiana Friday October 9<sup>th</sup>, moved through our area during the daytime and evening hours. WG employees who were affected by the storm are receiving assistance from WG management in order to return to work on Monday October 12<sup>th</sup>. The Crowley facility was not damaged in any way and the main roads leading to the facility are open. TWG has additional manufacturing facilities in Plain City, OH and Modesto, CA in the event of emergency. "Our facility will not experience any manufacturing delays or shutdowns related to Hurricane Delta" said S.L. "Sam" Wright, IV President & CEO. "We want to reassure our customers that they can continue to expect superior quality and complete customer support. Our thoughts are with our fellow employees, friends, and neighbors as they recover from the storm."

The Wright Group is a global supplier of custom nutritional ingredient solutions to the functional food and nutritional supplement industries, and is headquartered in Lafayette, Louisiana. For additional information, please visit [www.thewrightgroup.net](http://www.thewrightgroup.net).
